Harris County Municipal Utility District No. 50

SERVICE AGREEMENT

- I. **PURPOSE.** Harris County Municipal Utility District No. 50, of Harris County, Texas (the District”) Is responsible for protecting the drinking water supply from contamination or pollution which could from improper pluming practices. The purpose of this service agreement is to notify each customer of the pluming restrictions which are in place to provide this protection. The district enforced these restrictions to ensure the public health and welfare. Each customer must sign this agreement before the district will begin service. In addition, when service to an existing connection has been suspended or terminated, the District will not re-established service unless it has a signed copy of this agreement.

- II. **PLUMBING RESTRICTIONS:** The following unacceptable pluming practices are prohibited by STATE regulations.
 - A. No direct connection between the public drinking water supply and a potential source of contamination is permitted. Potential sources of contamination shall be from the public water system by an air-gap or an appropriate backflow prevention device.
 - B. No cross-connection between the public drinking water supply and a private water system is permitted. These potential threats to the public drinking water supple shall be eliminated at the service connection by the installation of an air-gap or a pressure-zone backflow prevention device.
 - C. No connection which allows water to be returned to the public drinking water supply is permitted.
 - D. No pipe or pipe fitting which contains more than 8.0% lead may be used for the installation or repair of plumbing at any connection which provides water for human use.
 - E. No solder or flux which contains more than 0.2% lead can be used for the installation or repair of plumbing at any connection which provides water for human use.

- III. **SERVICE AGREEMENT.** The following are the terms of the services agreement between the District and _____ (the “Customer”).
 - A. The District will maintain a copy of this agreement as long as Customer and/or the premises is connected to the District’s water system.

- B. Customer shall allow his/her property to be inspected for possible cross-connections and other unacceptable plumbing practices, These inspections shall be conducted by the District or its designated agent prior to initiating new water service; when there is reason that cross-connections or other unacceptable plumbing practices exist; or after any major changes to the private plumbing facilities. The inspections shall be conducted during the District's normal business hours.
- C. The District shall notify the Customer in writing of any cross-connection or other unacceptable plumbing practice which has been identified during the initial inspection or the periodic re-inspection.
- D. Customer shall immediately correct any unacceptable plumbing practice on his/her premises.
- E. Customer shall, at his/her expense, properly install, test, and maintain any backflow prevention device required by the District. Copies of all testing and maintenance records shall be provided to the District.
- F. Customer understands and agrees that the District does not guarantee any specific quantity or pressure of water for any purpose whatsoever and that the District is not liable to customer for failure or refusal to furnish any particular amount or pressure of water to Customer at any time.

IV. **ENFORCEMENT.** If customer fails to comply with the terms of the Service Agreement, the District shall, at its opinion, either terminate service or properly install, test, and maintain an appropriate backflow prevention device at the service connection. Any expenses associated with the enforcement of this Service Agreement shall be billed to Customer.

Section 2.08 Builder's Deposit.

Each builder of a residence (up to four [4]), at the time a request for a water tap is made, shall pay a deposit of \$1,150. Each builder with multiple residential homes (five [5] or more) or a subdivision development, shall pay a deposit of \$5,000 with a minimum amount kept on file of \$5,000 at all times. Each builder of a commercial building or other structure shall, at the time a request for a water tap is made, pay a deposit of \$2,500. Each builder of an apartment, no matter the number of units, shall pay a deposit of \$5,000 with a minimum of \$5,000 kept on file at all times. The deposit shall be refunded within ninety (90) days after the builder certifies the sale of its last residence, commercial building or other structure within the District, less any amounts forfeited as provided herein. The Builder Deposit is solely to secure the payment of costs to repair any District facilities potentially damaged by the Builder or other parties during construction of the improvement on the applicable property, and is in addition to the security deposit to secure payment of service charges described in Section 4.01 and reservation commitment deposit in Section X of this Order. The District shall deduct from the deposit the cost to repair any damage caused to the District's property by the builder or the builder's employees, contractors, subcontractors or agents and shall deduct any delinquent water and sewer service bills of the builder. In the event any amounts are so deducted from the builder's deposit, it will be incumbent on the builder to reinstate the original amount of the deposit, and failure to do so will result in the suspension of any additional water taps for the builder.
